

E-Commerce Sales & Operational Performance Report

Comprehensive Data Analysis, Insights & Strategic Recommendations

1. Executive Summary

This report analyzes key business metrics across product categories, regional sales distribution, customer engagement, and order fulfillment performance. The overall dataset demonstrates strong total revenue performance led by **Electronics**, balanced regional penetration, but highlights critical operational bottlenecks in delivery efficiency and minor customer rating variances across categories.

2. Category Financial Performance

Product Category	Orders	Quantity Sold	Avg Discount (%)	Total Discount	Gross Revenue	Net Revenue
Electronics	1,777	7,109	17.67%	\$393,413.31	\$2,223,312.57	\$1,829,899.26
Clothing	1,531	6,171	18.43%	\$355,199.86	\$1,887,131.50	\$1,531,931.64
Home	969	3,949	17.83%	\$214,134.00	\$1,196,217.97	\$982,083.97
Beauty	723	2,995	18.14%	\$167,498.90	\$933,359.92	\$765,861.02

Key Financial Insights:

- Electronics** generated the highest Net Revenue (\$1.83M) from 1,777 orders, making up the largest share of overall revenue.
- Clothing** followed as the second top performer (\$1.53M Net Revenue), carrying the highest average discount rate at 18.43%.
- Beauty & Home categories** show significantly lower order volumes (723 and 969 respectively), presenting clear opportunities for targeted marketing expansion.

3. Regional Sales & Customer Distribution

Region	Total Customers	Total Revenue	Avg Revenue / Customer
West	1,289	\$1,345,582.16	\$1,043.90
North	1,276	\$1,281,508.45	\$1,004.32

REGION	TOTAL CUSTOMERS	TOTAL REVENUE	AVG REVENUE / CUSTOMER
South	1,208	\$1,246,640.90	\$1,031.99
East	1,227	\$1,236,044.23	\$1,007.37

Regional Insights:

- Revenue across all four regions is highly balanced, ranging from \$1.23M (East) to \$1.34M (West).
- The **West region** leads both customer count (1,289) and total revenue generation (\$1.35M).

4. Category Ratings & Operations Analysis

Category Rating Breakdown:

- **Clothing:** Avg Rating 3.01 (1,531 Reviews)
- **Beauty:** Avg Rating 3.01 (723 Reviews)
- **Electronics:** Avg Rating 2.95 (1,777 Reviews)
- **Home:** Avg Rating 2.94 (969 Reviews)

⚠️ Operational Warning: The late vs. fast delivery distribution metric shows **11 Late Deliveries vs. 1 Fast Delivery**. Average delivery times stretch up to 10 days for certain orders, directly suppressing overall customer ratings (averaging ~2.95 - 3.01).

5. Strategic Recommendations

- **Logistics Optimization:** Address supply chain delays to reduce delivery durations from 6-10 days down to 2-3 days, improving customer satisfaction scores above 4.0.
- **Category Growth Strategy:** Invest in marketing for Home and Beauty categories to scale their order volume closer to Electronics.
- **Discounting Calibration:** Re-evaluate high discount rates (up to 18.43%) on top-selling categories to preserve net profit margins.
